## GOOD HOUSEKEEPING **DENIM** GUIDE 2015

Take the stress out of jeans-shopping. We found you a perfect pair — or two!

### THE JOGGER

Comfy (drawstring waist! roomy fit!) has never been so darn cute. Consider these the favorite “sweats” you can actually wear out of the house.

## THE NEW TROUSERS

Fool them at the office with jeans that sure look like pants, thanks to their tailored cut and concealed zippers and buttons.

## TUXEDO BLING

Nothing boyish about a boyish cut when it has so-right-now sparkly side stripes. Petite? These will give you legs for days.

## THE GIRLFRIEND

Break up with your boyfriend (jeans): This less slouchy, more distressed look is going to be your new love.

As seen on biker jackets, motorcycle-style details like ribbing and patchwork stitching are now giving jeans a little attitude.

**FAT CUFF** Those jeans you normally wear with heels? Create a two-inch "hem" for sneaker days.

Shoes, \$148, klubnico.com.

# THE SKINNY

Fat chance this style is falling out of favor! Here, four trendy updates, plus six can't-miss deals on the classic cut

## TWO-TONE

Why commit to one print? There's a party in the front *and* the back of this pair. Double the fun!

## QUILTED

Diamond seams (think Chanel bag) add a touch of luxe to basic blues. Slimming trick: Keep the pattern below the knee.

## NAUTICAL

A sailor-style stacked button-front sans pockets or zipper minimizes your middle.
